THE CYPRESS

A soft, elevated take on contemporary with light wood tones, dramatic stone, and warm brushed metals for an inviting feel. Soft white shaker cabinetry, Calacatta-style quartz with dramatic flowing gray veining, and a satin-finish vertical-stack tile backsplash anchor the kitchen, finished with brushed nickel pulls and brushed stainless fixtures throughout. White cabinetry and white quartz carry through every bath, with matte white stone-look tile elevating the primary shower, while light oak porcelain flooring flows through the main living areas and baths, soft neutral carpet grounds the bedrooms, and warm greige walls with white ceilings and a modern black craftsman front door complete the look.
